Human Movement Science 3 (1984) 357–358
North-Holland

CONTENTS OF VOLUME 3

Adams, R. and S. Andrews, Brain injury and movement recall: preselection, active–passive and interference effects 285
Alain, C., *see* E. Buckolz 219
Andrews, S., *see* R. Adams 285
Bakker, F.C., *Review of* L.M. Stallings, Motor learning. From theory to practice 282
Buckolz, E., M. Guay and C. Alain, Are movements/proprioception effective time-keeping mediators? The input hypothesis re-visited 219
Cappozzo, A., Gait analysis methodology 27
Elliott, D., *see* C.L. MacKenzie 257
Fraser, C., *see* S. Lough 247
Gentile, A.M., *see* R.A. Muzii 337
Gielen, C.C.A.M., *see* M.H. Vincken 269
Grant, E.C., *see* U. Hadar 237
Guay, M., *see* E. Buckolz 219
Hadar, U., T.J. Steiner, E.C. Grant and F.C. Rose, The timing of shifts of head postures during conversation 237
Hatze, H., Quantitative analysis, synthesis and optimization of human motion 5
Hof, A.L., EMG and muscle force: an introduction 119
Jenner, J.R., *see* S. Lough 247
Lamm Warburg, C., *see* R.A. Muzii 337
Lough, S., A.M. Wing, C. Fraser and J.R. Jenner, Measurement of recovery of function in the hemiparetic upper limb following stroke: a preliminary report 247
Maarse, F.J., *see* H.-L. Teulings 193
MacKenzie, C.L., D. Elliott and E.A. Roy, Common response processing and psychological refractoriness 257
Muzii, R.A., C. Lamm Warburg and A.M. Gentile, Coordination of the upper and lower extremities 337
